

Concrete Hoppers

Concrete Hopper - This attachment is a self-dumping hopper which automatically triggers to unload whenever bumper release contacts the side of a dumpster. As soon as unloading is done, the hopper returns to a locked and upright position. This particular piece of equipment likewise comes along with a cable that enables operation from the seat of the forklift so as to have the alternative of manually unloading the hopper. There is a locking chain provided in order to lock the hopper to the tine truck. This particular product is made with reliable and consistent robotic welds for maximum strength. The forklift dumping hopper even has a blue powder coat finish in order to maintain durability.
