

Meritor Parts

Meritor Parts - Meritor is a leading global supplier which is proudly established on a one hundred year tradition of service and quality. They focus on a broad range of integrated systems, modules and parts to original equipment makers and the aftermarket for the industrial and transportation trades.

Meritor values the requirements of their clients to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their international operations. Meritor begins with a tradition which values diversity of people and their broad thought processes. Operating in 19 countries and employing more than 11,200 people, Meritor promotes innovation and collaboration amongst a team of experienced experts.

Meritor strongly believes in only hiring future focused people. These top-caliber workers could quickly get used to to changing surroundings and freely exhibit the level of performance and commitment required in order to attain results for the competitive market environment. The company empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor provides all their workers different possibilities for professional and personal growth.

Their Advanced Engineering team is at the forefront of parts and system engineering that comprise axles, drivelines, braking and suspension systems meant for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is even responsible for supporting the needs of their global engineering workers.

The Quality team at Meritor is a customer-focused and dynamic group who is committed to ensuring optimum growth at their production plants and aftermarket distribution facilities that are situated on 5 continents and in 19 nations.

The supplier development network is particularly situated to be able to support new business growth. Regional teams are supported by global centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making within each and every part of the company. The DFSS or also referred to as Design for Six Sigma ensures product reliability within each region. The team is likewise included transactional Green Belts who make use of Six Sigma tools to business methods and apply lean methods.
