

Rockwell Parts

Rockwell Parts - The business of AxleTech International is a large supplier of specialty vehicle drive-train systems and components together with off highway vehicles. They take great pride in being a preferred supplier to their customer base. AxleTech strives to meet and exceed their clients' expectations for quality, service, technology and delivery. They believe in working within an atmosphere which supports the utmost integrity with empowered teamwork, combined with a relentless pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great emphasis on being an environmentally conscious business and providing a safe environment for their workers to work in. What's more, they have applied many programs within the company in order to help articulate these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whatever questions or comments, as they are happy to share and promote this policy with a greater understanding of their efforts. They are really devoted to preserving and improving the natural environment. AxleTech has an EHS program that not only protects the environment but which also actively protects their employees and neighbors too.

AxleTech prides themselves as being a ground-breaking drive-train solutions provider. They specialize in designing and manufacturing planetary axles utilized for both military and commercial applications. These applications vary from construction equipment to airport ground support. AxleTech specially designs axles to meet specific application demands. They have more than 1000 various axle specs within their current offering. With more than 100+ years of history and skill, AxleTech proudly supplies the most complete solution for any of your axle needs. The business is well known in many military and commercial applications. They provide complete axle assemblies used for aftermarket replacement requirements, along with servicing axle requirements for OE production. Their high mobility ISAS have further details that could be found in the "ISAS" product selection.
