

Clark Forklift Parts

Clark Forklift Parts - Presently, there are no less than 350,000 Clark forklifts performing worldwide, and upwards of 250,000 in service in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive designs of lift trucks, with components covering more than 120,000 particular components for all of its automated equipment. Your local Clark Supplier is your total source for availability of all your components requirements offered by Clark Totalift.

Clark's phenomenal Parts Distribution Facilities are conveniently situated in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to supply the highest level of value and service to our users, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Internationally, Clark has one of the most impressive supplier support networks. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their clients predominates the materials handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing safety features such as the operator restraint system. This exceptional commitment to safety is now a customary feature on every lift truck.

Clark has a unrelenting objective to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its production plants. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental limitations, thus placing them in a prevailing industry position.

Clark has selected the extremely economical and beneficial structure of "Lean Manufacturing" for its assembly facilities and application of resources. This structure was developed to acknowledge the most effective approaches of production facility stewardship and ensuring maximum proficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to develop the proficiency and excellence of their merchandise while minimizing expenses. The new value engineering program combines modern product improvement and delivers superior client support and service within the industry.
