

Spreader Bar for Forklifts

Forklift Spreader Bars - ELME has been proudly operating ever since the year 1974, becoming the largest independent spreader business in the globe. They are a dedicated maker of spreaders intended for many different applications like for example the trailers, handling of containers and swap bodies.

Engineering is done in-house by means of utilizing the newest FEM tools and CAD systems. The ELME company now has more than one hundred twenty five staff members. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks across the globe.

The ELME product collection offers spreaders designed for different trailer and container handling operations. Some of their inventory include: Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes plus a wide array of additional parts.

Production and manufacturing of ELME products are developed in highly automated purpose built factory. In the year 2008, they made one thousand one hundred fifty spreaders by making use of quality components to guarantee dependability and top standards. Major characteristics of ELME comprise design simplicity, market feedback and inventive modular spreader concept.
